

Who Uses: Patriot Finishing Touch Horse Supplement (605900)

Horse owners who would like to add fat calories to the horses diet for improved performance, weight gain, and coat condition.

Description

A high fat pelleted supplement designed to be mixed with a balanced complete feed to increase the caloric density of the diet and add fat calories as an energy source.

Features

- 18% all vegetable fat.
- Contains flax seed.
- Contains both Omega 3 and Omega 6 fatty acids.
- Contains a full complement of vitamins and minerals.
- Contains a high level of Vitamin E.
- Contains chelated trace minerals.

Benefits

- Provide the added fat calories certain classes of horses require for optimum performance.
- To improve coat condition.
- A balance of fatty acids is necessary for optimum health and performance.
- Can be mixed with a balanced complete feed without diluting out other nutrients.
- Higher fat diets need to be balanced with higher Vitamin E levels. Vitamin E is a powerful antioxidant, which enhances immune response and improves tissue regeneration.
- For increased bioavailability of those nutrients essential for immune response, hoof health, bone and cartilage development.

Directions For Use:

Patriot Finishing Touch Horse Supplement is designed to be fed with a balanced complete feed, for horses requiring additional calories from fat, typically at a rate of 0.5-1.5 kg per horse per day.

For example: Feed 0.5 kg of Patriot Finishing Touch Horse Supplement with 2 kgs of a Masterfeeds Complete feed (e.g. Patriot 12% horse ration) along with good quality hay to a 500 kg horse in light work.

Feed 1 kg of Patriot Finishing Touch Horse Supplement with 3 kgs of Masterfeeds Complete Feed (e.g. Patriot 12% Horse Ration) along with good quality hay to a 500 kg horse in heavy work.

Adjust quantities of Finishing Touch Supplement and Masterfeeds complete feed according to quality of hay, body condition and level of performance to a maximum of 1.5 kg per 100 kg bodyweight total concentrates.
